EDUCATION

Global Academy Of Technology <i>Bachelor of Technology — Artificial Intelligence and Machine Learning</i>	June 2025 CGPA - 8.88
Sri Kumaran Children's Home PUC <i>Pre-University Course, K'taka PUC - Electronics</i>	May. 2021 CGPA - 9.3
Prarthana Central School <i>Class X, CBSE</i>	March. 2019 CGPA - 9.3

EXPERIENCE

Engineering Intern <i>Hindustan Aeronautics Limited (HAL)</i>	Oct. 2024 – Nov. 2024 Bengaluru
- Developed a .NET application that streamlined unit-level communication for 150+ employees, improving internal communication efficiency by 30% . - Collaborated with cross-functional teams to resolve network issues, reducing system downtime by 25% and enhancing overall system reliability. - Implemented data security protocols, ensuring compliance with organizational standards and safeguarding sensitive information.	

ACADEMIC PROJECTS

EchoSight: An AI Driven Wearable device for the Blind <i>OpenCV, Dlib, YOLOv4-tiny, TensorFlow, Arduino, Wi-Fi Communication, Text-to-Speech (TTS)</i>	[2025]
An AI-powered assistive device integrating face recognition (Dlib), object detection (YOLOv4-tiny), and ultrasonic obstacle detection to provide real-time audio feedback for visually impaired users.	
ASL Hand Sign Recognition <i>Python, Deep Learning, CNN</i>	[2024]
Built and trained a deep learning CNN model achieving 92% accuracy in classifying 26 ASL hand signs from 1000+ labeled images to improve accessibility solutions.	
Answer Script Evaluation Bot <i>Python, Flask, Google Gemini API, Prompt Engineering, pdf2image, PIL</i>	[2024]
Designed an AI system using Google Gemini to evaluate handwritten student answers from images/PDFs, achieving 90%+ accuracy in structured scoring and feedback using prompt engineering and OCR.	
Automated Vehicle Maintenance Predictor <i>Python, Machine Learning-K-Means Clustering, XGBoost, SVM, Random Forest, Scikit-Learn</i>	[2023]
Developed a predictive model with 98.5% accuracy by analyzing 10,000+ maintenance records using machine learning techniques, optimizing schedules to reduce breakdowns by 25% and save operational costs.	

LEADERSHIP AND EXTRA-CURRICULAR

- Founding Core Committee Member of VIHANA - The social-service club of the Department of Artificial Intelligence and Machine Learning

CERTIFICATIONS

- Python for Data Science and Machine Learning – UDEMY
- ChatGPT Prompt Engineering for Developers – DeepLearning.AI
- Generative AI with Large Language Models – Coursera/Google
- Pair Programming with a Large Language Model - DeepLearning.AI
- Build LLM Apps with LangChain.js - DeepLearning.AI

SKILLS

Languages: Python, C, R, SQL, JavaScript, HTML/CSS

Frameworks: React, Node.js, Flask, Material-UI, Retrieval-Augmented Generation (RAG), Next.js, Vite, StreamLit

Developer Tools: Git, Docker, VS Code, PyCharm, Postman, XAMPP, EmailJS

Libraries & Tools: Pandas, NumPy, Matplotlib, Keras, Scikit-Learn, Three.js (3js), TailwindCSS, REST API, Natural Language Processing (NLP)
